

A topographic map of the Council Creek area, showing elevation contours and a red boundary. The map is overlaid on an aerial photograph. The red boundary outlines a specific area of interest. The map includes labels for 'Council Creek' and '20-17N5W'. The elevation contours are color-coded, with blue representing lower elevations and red representing higher elevations. The map shows a complex terrain with many peaks and valleys. The red boundary follows the general shape of the terrain, enclosing a large area of land. The map is oriented with North at the top. The red boundary is a solid line, and the area it encloses is shaded in various colors to represent different elevation ranges. The map is a detailed representation of the terrain, showing the relationship between the land and the water. The red boundary is a key feature of the map, indicating a specific area of interest. The map is a valuable tool for understanding the terrain and for planning land use. The map is a clear and concise representation of the terrain, showing the relationship between the land and the water. The red boundary is a key feature of the map, indicating a specific area of interest. The map is a valuable tool for understanding the terrain and for planning land use.
